## COMPUTER BASED PEOPLE COUNTING SYSTEM

TotalCount can now supply a **reasonably priced** PC based People Counting system.

The software for the system is Microsoft @ Windows based. The software logs a count each time the sensor installed across the doorway detects someone. It records the date and time of every count - Stored Traffic Counts - and produces detailed reports and graphs showing this actual People Traffic data.

The reports can be **Daily Reports** showing People Traffic per hour or **Totals Reports** detailing daily, weekly, monthly or yearly Total Traffic.

At any time you can access the Stored Traffic Counts to select a start date and finish date to generate a new and **specific** report.

### WHAT YOU GET

We supply a quality **Sensor** to detect People Traffic, Power Supply, **Opto-Coupler Control Box**, the **connector** to your PC and a WinCounter software CD to load using your CD Rom Drive. A Sensor Bracket, Reflector and screws are also included.

The Sensor is either cabled to the Opto-Coupler Control Box and then into the PC or we can supply our M50 Addmitter Transmitter and Receiver units so there is no need to lay cable between the Sensor and the Opto-Coupler Control Box. This last option makes installation a quicker and easier process.

The system is straight forward to install. A person handy with tools or certainly an electrician or cabler could install the system.

There is a full **step-by-step guide** to installing the sensor, Control Box etc and the Software.

### WHAT DOES IT COST

For a location with a single entry the cost would be **\$902** including GST and freight for the cabled version and **\$1012** including GST and freight for the system using the Addmitter M50 Transmitter and Receiver.

**TotalCount PC Based System - Cabled**  
Cost: **\$902 GST & freight included.**

### MORE THAN ONE ENTRANCE OR MORE THAN ONE LOCATION

The system does handle multiple entrances. For example a shop, shopping centre or arcade with more than one entrance. Also if you have more than one shop the counts can be sent to Head Office.
